INDEX OF SUBJECTS

Volume 35

July 1965 • December 1965

Journal of the National Cancer Institute

Adenocarcinoma, of prostate gland in female *Rattus (Mastomys) natalensis*, 7
Adenovirus 12 *see* Virus
Adrenal gland, effect of hepatic injury on induction of necrosis of, by 7,12-dimethylbenz[*a*]anthracene in rats, 631
Amyloid, deposition of, in strain A mice, relationship to renal disease, 167
Anaerobiosis, and induction of malignancy in mice, 719
Anemia, in tumor-bearing rats, effects of bacterial contamination, 251
Announcements:
  Manuscripts Approved for JNCI, 235, 379, 580, 727, 905, 1073
  National Cancer Institute Monograph 18, 1073
  Ninth International Cancer Congress, 579
  One-Week Course in Cancer Chemotherapy, 379
  Seventh International Transplantation Conference, 236
Antibody(ies):
  immunodepressive effect of 3-methylcholanthrene in mice, 885
  immunoglobulins in neonatally thymectomized mice, 663
  against Rous sarcoma virus in African chickens and wildfowl, 1043
Antigen(s) *see also* Antibody; Immunity studies
  antigenic determinants of immunoglobulins in neonatally thymectomized mice, 663
  variability in immunological responsiveness to non-*H-2* differences in mice, 349
Antimetabolites, methionine antagonists and homocysteine derivatives, effect of, on rat liver regeneration, 591
Antitumor agents *see* Endoxan; Vinblastine; Vincristine
Ascites tumors, #678 carcinoma, metastasis after intravenous injection of, into C3H mice at high altitude, 193
L-Asparaginase, lymphoma inhibition and clearance rate of different preparations of, in mice, 967
Avian sarcoma viruses *see* Virus
Azo dyes *see* *N*,*N*-Dimethyl-*p*-phenylazoanaline

Bat, *Plecotus townsendii virginianus*, Handley, cutaneous leiomyosarcoma in long-eared, 95
Bone marrow, mortality in male and female mice exposed to X radiation and treated intravenously with, from male or female mice, 227
Books received, 377
Breast *see* Mammary tumor

Cadmium, comparative study of interstitial cell tumors of rat testis induced by injection of, and vascular ligation, 329
Cancer *see also* Names and types of tumors; Tumors
  research, scientific attitudes in, 1
Carcinogenesis *see also* Names and types of tumors; Tumors
  anaerobiosis and induction of malignancy in mice, 719
  by avian sarcoma viruses, mechanism of, 679
  chemical carcinogens,
    diethylnitrosamine, metabolic changes in Embden-Meyerhof pathway during development of rat hepatoma induced by, 413
    7,12-dimethylbenz[*a*]anthracene, effect of hepatic injury on induction of adrenal necrosis and mammary cancer by, in rats, 631
    N,*N*-dimethyl-*p*-phenylazoanaline, mitotic blockage at G_2 after partial hepatectomy during hepatocarcinogenesis with, in rats, 585
    N-2-fluorenyldiacetamide,
      prevention of induced liver cancer in rats by chloramphenicol given with, 29
      and thyroid gland, effect of, on liver of Wistar male rats, 959
    N,*N'*-2,7-fluorenylenebisacetamide, effect of orally administered, combined with traumatic ulcers of glandular stomach of Buffalo rats, 829
    hydrocarbons, transformation *in vitro* of normal cells to tumor cells by, in golden hamster and mouse embryos, 641

Carcinogenesis—Continued
chemical carcinogens—Continued
3-methylcholanthrene,
action and interaction of,
and hydrocortisone, on ventral prostate of rat *in vitro*, 1001
and testosterone on ventral prostate of rat *in vitro*, 339
or dibenz[*a*,*h*]anthracene, tumors induced in mice given single dose of, as newborns, 1027
immunodepressive effect of, in mice, 885
4-nitroquinoline *N*-oxide, production of labial and lingual carcinoma by, applied locally to mice, 907
epoxides, lactones, and peroxides, carcinogenicity of, in mice, 707
hepatocarcinogenicity of dioxane in rats, 949
tumor promotion in mouse forestomach epithelium by orally administered citrus oils, 771
Carcinogens *see* Dibenz[*a*,*h*]anthracene; Diethylnitrosamine; 7,12-Dimethylbenz[*a*]anthracene; *N*,*N*-Dimethyl-*p*-phenylazoanaline; *N*-2-Fluorenyldiacetamide; *N*,*N'*-2,7-Fluorenylenebisacetamide; Hydrocarbons; 3-Methylcholanthrene; 4-Nitroquinoline *N*-oxide
Carcinoma(s):
human epidermoid, chromosomes of H.Ep. #1, H.Ep. #3, and H.Ep. #5, 435
intraepithelial, of cervix, prevalence of, in early years of marriage, 581
labial and lingual, production of, in mice by 4-nitroquinoline *N*-oxide applied locally, 907
V2, alterations in fibrinogen, plasminogen, and inhibitors of plasmin with growth of, in rabbits, 567
Catechol amine, produced by neuroblastoma resulting in hypertensive or diarrheal syndromes in humans, 215
Cell(s):
cytochemistry of olfactory bulb of squirrel monkey, 153
erythroblasts, selective binding sites for transfer of ferritin into, in humans and rats, 139
HeLa,
cytoplasmic ribonucleoprotein in, 55
differences in effect of human sera on, in culture, 67
effect of vincristine on fine structure of, during mitosis, 355
karyotype, of adenovirus-type-12-induced tumors of Syrian hamster, 759
L, *in vitro* assay for growth-inhibiting activity of vinblastine, 851
lymphocyte transformation in epithelium of mice and rats, 113
Cervix:
cancer of, morbidity from, and effects of socioeconomic status on, 1015
carcinoma *in situ* of, prevalence of, in early years of marriage, 581
Chimeras, factors affecting mortality from secondary disease in mouse radiation, 227
Chloramphenicol, prevention of liver cancer in rats by, 29
Chromosome(s) *see also* Genetics
aberrations of, in tumors of Syrian hamsters induced by adenovirus 12, 603
changes in, in thymus, spleen, and bone marrow during X-ray-induced leukemogenesis in mice, 421
of heterotransplanted human tumors, H.Ep. #1, H.Ep. #3, and H.Ep. #5, 435
of spontaneous, transplantable golden hamster tumor, 381
of a transplanted and a primary canine venereal sarcoma, 537
Circadian rhthym, persistence of mitotic, of transplantable mammary carcinoma after 35 generations in mice, 285
Citrus oils, orally administered, tumor promotion in mouse forestomach epithelium by, 771
Coagulation, factor of plasma, effect of V2 carcinoma in rabbits on, 567

Diagnosis, microscopical, of olfactory esthesioneuromas, general review and report of five cases, 75
Dibenz[*a*,*h*]anthracene, tumors induced in mice given single dose of, as newborns, 1027
Diethylnitrosamine, metabolic changes in Embden-Meyerhof pathway during development of rat hepatoma induced by, 413
7,12-Dimethylbenz[*a*]anthracene, effect of hepatic injury on induction of adrenal necrosis and mammary cancer by, in rats, 631
N,*N*-Dimethyl-*p*-phenylazoanaline, mitotic blockage at G_2 after partial hepatectomy during hepatocarcinogenesis with, in rats, 585
Dioxane, hepatocarcinogenicity of, in rats, 949
Dose response (studies):
minimal, tumors induced in mice given dibenz[*a*,*h*]-anthracene or 3-methylcholanthrene as newborns, 1027
to polyoma virus in rats, 259

Earle, Wilton Robinson, obituary, III (Sept.)
Electron microscopy:
effect of vincristine on fine structure of HeLa cells during mitosis, 355
fine structure of transplantable hepatomas of rat, 459
of herpes-like particles in American lymphoma, 899
and light microscopy, lymphocyte transformation in epithelium of rats and mice studied by, 113
ultrastructure,
after 2-β-aminoethylisothiourea (AET) in mice, 103
of erythroblasts of humans and rats, 139
Endoxan, influence of mitotic circadian rhythm on success of treatment of transplantable mammary carcinoma of mice with, 285
Environment, high altitude, study of metastasis in C3H mice at, 193
Enzymes *see* Names of
Epidemiology:
cancer incidence in Kyadondo County, Uganda, 789
cancer mortality among Polish-born in United States, 291

Epidemiology—Continued
cancer survey in Lourenço Marques, Portuguese East Africa, 729
cervical cancer,
morbidity from, effects of cervical cytology and socio-economic status, 1015
prevalence of intraepithelial carcinoma in early years of marriage, 581
temporal-spatial distribution of leukemia and lymphoma in Connecticut, 625
Epoxides, carcinogenicity of, in mice, 707
Erythroblasts, selective binding sites for transfer of ferritin into, in humans and rats, 139
Erythropoiesis, by mouse bone-marrow cells after short-term culture, 573
Esthesioneuromas, microscopical diagnosis of olfactory, general review and report of five cases, 75

Ferritin, selective binding sites for transfer of, into erythroblasts in humans and rats, 139
Fibrinogen, plasminogen, and inhibitors of plasmin, alterations in, with growth of V2 carcinoma in rabbits, 567
N-2-Fluorenyldiacetamide:
prevention of induced liver cancer in rats by chloramphenicol given with, 29
and thyroid gland, effect of, on liver in Wistar male rats, 959
N,N'-2,7-Fluorenylenebisacetamide, effect of orally administered, combined with traumatic ulcers of glandular stomach of Buffalo rats, 829
Formalin, treatment, differentiation of two forms of particles in plasma of mice bearing lactic dehydrogenase agent, 975

Ganglioneuroma, maturation of malignant neuroblastomas to benign, in humans, 215
Gastric tumor(s):
effect of orally administered *N,N'*-2,7-fluorenylenebisacetamide combined with traumatic ulcers of glandular stomach of Buffalo rats, 829
promotion of, in mice by orally administered citrus oils, 771
Genetics *see also* Chromosomes
factors influencing irradiation protection by bone marrow in mice, 695
influence of the Rs locus on susceptibility to avian tumor viruses, 857
inheritance or resistance to polyoma tumorigenesis in inbred mice, 595
Glands *see* Names of
Glycolysis, changes in hepatic glycolytic enzymes during carcinogenesis in rat, 413

Hemangiomas, hepatic, induced by polyoma virus in hamsters, 201
Hepatoma(s):
metabolic changes in Embden-Meyerhof pathway during development of, in rat, 413
produced in rats by dioxane, 949
transplantable, fine structure of, in rat, 459
Heredity *see* Genetics
Herpes *see* Virus
Hormones *see* Adrenal; Hydrocortisone; Testosterone; Thyroid
Hydrocarbons, carcinogenic, transformation of normal cells to tumor cells by, in golden hamster and mouse embryos, 641
Hydrocortisone, action and interaction of, and 3-methylcholanthrene on ventral prostate of rat *in vitro*, 1001
Hyperplasia, proliferative, of prostate gland in female *Rattus* (*Mastomys*) *natalensis*, 7

Immunity studies:
growth and behavior of cultured human epidermal cells implanted in homologous skin, 175
immunodepressive effect of 3-methylcholanthrene in mice, 885
interaction between tumor and murine host during neoplastic growth, 1053
reactions following transfer of lymphocytes in patients with advanced cancer, 927
variability in responsiveness to non-*H-2* differences in mice, 349
Implantation *see* Transplantation
Inheritance *see* Genetics
Interstitial cell tumors, of rat testis induced by cadmium injection and vascular ligation, 329
Intestines, small, light and electron microscope study of lymphocyte transformation in, of rats and mice, 113
Irradiation *see* X-ray

Kidney, deposition of amyloid in strain A mice, relationship to disease of, 167

Lactate dehydrogenase, properties of, in mice, 975
Lactones, carcinogenicity of, in mice, 707
Leukemia:
human, clustering of, in Connecticut, 625
murine,
in DBA/2 and CBA mice by intraperitoneal injections of mineral oil, 83
Friend, thrombocytopenia induced by, 993
Rauscher,
long-term propagation of, in tissue culture, 319
pathogenesis of, 865
Rich, characteristics of, 523
X-ray-induced, chromosomal changes in thymus, spleen, and bone marrow, 421
Liver:
effect of injury of, on induction of adrenal necrosis and mammary cancer by 7,12-dimethylbenz[*a*]anthracene in rats, 631
hemangiomas of, in hamsters, induced by polyoma virus, 201
mitotic blockage at G_2 after partial hepatectomy during *N,N*-dimethyl-*p*-phenylazoanaline carcinogenesis in rats, 585
prevention of cancer of, in rats by chloramphenicol, 29

Liver—Continued
regeneration, effect of homocysteine derivatives and methionine antagonists on, in rat, 591
thyroid gland and *N*-2-fluorenyldiacetamide carcinogenesis and cirrhosis of, in Wistar male rats, 959
Lung tumors, in breeding female BALB/cAnDe mice, 1047
Lymphocytes:
reaction of patients with advanced cancer to transfer of, 927
transformation of, in epithelium of mice and rats, 113
Lymphoma(s):
human,
clustering of, in Connecticut, 625
herpes-like particles in, found in United States, 899
murine,
inhibition of, by L-asparaginase, 967
radiosensitivity of cells of ascites, 841

MacCardle, Ross C., obituary, IV, VI (July)
Mammary tumor(s):
in breeding female BALB/cAnDe mice, 1047
effect of hepatic injury on induction of, by 7,12-dimethylbenz[*a*]anthracene in rats, 631
incidence of, in strain RIII mice, 39
persistence of mitotic circadian rhythm of transplantable carcinoma after 35 generations in mice, 285
Mammary tumor agent:
infectivity of, in blood and mammary tissues of C3H and BALB/c *f*. C3H mice, 309
interference with, in mice, 299
isolation of, from mice, chemical and morphological studies of, 549
of strain RIII mice, 39
Marathoner, physiological studies of Clarence DeMar, 185
Marital status, prevalence of carcinoma *in situ* in early years of marriage, 581
Melanomas, inhibition of growth of, by phenyl lactate, 823
Metals *see* Names of
Metastasis, in lung after intravenous injection of #678 ascites carcinoma into C3H mice at high altitude, 193
3-Methylcholanthrene:
action and interaction of,
and hydrocortisone on ventral prostate of rat *in vitro*, 1001
and testosterone on ventral prostate of rat *in vitro*, 339
immunodepressive effect of, in mice, 885
tumors induced in mice given single dose of, as newborns, 1027
Mineral oil, reticular neoplasms in DBA/2 and CBA mice by intraperitoneal injections of, 83
Mitosis, blockage of, at G_2 after partial hepatectomy during hepatocarcinogenesis with *N*,*N*-dimethyl-*p*-phenylazoanaline in rats, 585
Mortality *see* Statistics

Neuroblastoma, maturation and adrenergic function of, in humans, 215
4-Nitroquinoline *N*-oxide, production of labial and lingual carcinoma by, applied locally to mice, 907
Nose:
microscopical diagnosis of olfactory esthesioneuromas, general review and report of five cases, 75
olfactory bulb, histochemical studies of, in squirrel monkey, 153
Nucleic acid *see* Ribonucleic acid.
Nucleoprotein(s):
characterization of granular ribonucleoprotein in cytoplasm, 55
^{3}H-thymidine-labeled, in mice, 103

Obituaries:
Earle, Wilton Robinson, III (Sept.)
MacCardle, Ross C., IV, VI (July)
Prates, Manuel D., III (Nov.)
Organ culture:
ventral prostate of rat in,
action and interaction of hydrocortisone and 3-methylcholanthrene on, 1001
action and interaction of testosterone and 3-methylcholanthrene on, 339

Papovavirus SV40 *see* Virus—simian vacuolating (SV40)
Peroxides, carcinogenicity of, in mice, 707
Physiological studies, of Marathoner Clarence DeMar, 185
Plasma cell neoplasms, in DBA/2 and CBA mice by intraperitoneal injections of mineral oil, 83
Plasminogen, inhibitors of plasmin, and fibrinogen, alterations in, with growth of V2 carcinoma in rabbits, 567
Polyoma *see* Virus
Prates, Manuel D., obituary, III (Nov.)
Primates, squirrel monkey, histochemical studies of olfactory bulb in, 153
Prostate:
adenocarcinoma and proliferative hyperplasia of, in female *Rattus* (*Mastomys*) *natalensis*, 7
ventral, action and interaction of,
hydrocortisone and 3-methylcholanthrene on, of rat *in vitro*, 1001
testosterone and 3-methylcholanthrene on, of rat *in vitro*, 339

Reticuloendothelial system, histology of, of spleen in mice of inbred strains, 15
Reticuloendothelium:
lymphocyte transformation in epithelium of mice and rats, 113
neoplasms of, in DBA/2 and CBA mice by intraperitoneal injections of mineral oil, 83

Reviews:
of microscopical diagnosis of olfactory esthesioneuromas, 75
on scientific attitudes, 1
Ribonucleic acid, acridine orange staining of, in reovirus-infected monkey kidney cell, 919
Rous sarcoma *see* Virus
Runting syndrome, in mice inoculated with polyoma virus, 237

Sarcoma(s):
Jensen, effects of bacterial contamination of, on anemia in rats, 251
leiomyosarcoma, cutaneous, in long-eared bat, *Plecotus townsendii virginianus*, Handley, 95
polymorphous, chromosome analysis of, in golden hamster, 381
transplanted and a primary canine venereal, chromosome studies of, 537
Secondary disease, factors affecting mortality from, in mouse radiation chimeras, 227
Serum, human, differences in effect of individual, on cell cultures, 67
Skin, cultured human epidermal cells in homologous, 175
Skin tumor(s):
induced by epoxides, lactones, and peroxides in mice, 707
leiomyosarcoma in long-eared bat, *Plecotus townsendii virginianus*, Handley, 95
Smoking (tobacco), habits and beliefs of Oregon physicians, 893
Socioeconomic status, and morbidity from cervical cancer, 1015
Spleen, histology of reticuloendothelial system of, in mice of inbred strains, 15
Stains and staining:
acridine orange, of reovirus-infected monkey kidney cell, 919
silver impregnation technique, study of histologic structure of reticuloendothelial system of spleen of mice of inbred strains by, 15
toluidine blue-molybdate, for cytoplasmic ribonucleoprotein, 55
Statistics, cancer:
incidence,
in Kyadondo County, Uganda, 789
in Lourenço Marques, Portuguese East Africa, 729
mortality among Polish-born in United States, 291
smoking, habits and beliefs of Oregon physicians, 893
socioeconomic status and morbidity from cervical cancer, 1015
Stomach *see* Gastric tumors
Sulfhydryl compounds, tissue and cellular distribution of tritium-labeled 2-β-aminoethylisothiourea (AET) in mice, 103

Technique:
biological, transparent chambers in hamster cheek pouch, vascular patterns in living tumors studied with, 497
Technique—Continued
histochemical,
localization of dephosphorylating and oxidative enzymes and esterases in olfactory bulb of squirrel monkey, 153
silver impregnation, reticuloendothelial system of spleen of inbred strains of mice studied by, 15
toluidine blue-molybdate, properties of cytoplasmic ribonucleoprotein stained by, 55
radioactive material, tissue and cellular distribution of 2-β-aminoethylisothiourea (AET) in mice, 103
Testis, interstitial cell tumors of rat, induced by cadmium injection and vascular ligation, 329
Testosterone, action and interaction of, and 3-methylcholanthrene on ventral prostate of rat *in vitro*, 339
Thrombocytopenia, induced by Friend murine leukemia virus, 993
Thymus:
thymectomy,
immunoglobulins in mice after neonatal, 663
influence of, in adenovirus-12 infection of hamsters, 617
Thyroid gland, and *N*-2-fluorenyldiacetamide carcinogenesis, effect of, on cirrhosis of liver in Wistar male rats, 959
Tissue culture:
assay for growth-inhibiting activity of vinblastine, 851
attempt to induce malignant transformation of cells in, by intermittent anaerobiosis in mice, 719
autologous implantation of rhesus monkey cells "transformed" in, by simian virus 40, 981
effect of individual human sera on cells in, 67
growth and behavior of human epidermal cells in homologous skin, 175
long-term propagation of Rauscher murine leukemia virus in, 319
short-term, erythropoietic capacity of mouse bone marrow cells after, 573
transformation in, of normal cells to tumor cells by carcinogenic hydrocarbons in golden hamster and mouse embryos, 641
Tobacco *see* Smoking
Tracer studies, tritium-labeled 2-β-aminoethylisothiourea (AET) in mice, 103
Transformation:
in vitro,
autologous implantation of rhesus monkey cells after, by simian virus 40, 981
malignant, attempt to induce, of cells by intermittent anaerobiosis in mice, 719
of normal cells to tumor cells by carcinogenic hydrocarbons in golden hamster and mouse embryos, 641
Transplantation:
of #678 ascites carcinoma, metastasis of, in C3H mice at high altitude, 193
autologous, of rhesus monkey cells "transformed" *in vitro* by simian virus 40, 981
characteristics of, and radiosensitivity in ascites murine lymphoma, 841
cultured human epidermal cells in homologous skin, growth and behavior of, 175

Transplantation—Continued
erythropoietic capacity of mouse bone marrow after short-term culture *in vitro*, 573
genetic factors influencing irradiation protection by, of bone marrow in mice, 695
interaction between tumor and murine host during neoplastic growth, 1053
of polyoma virus-induced hepatic hemangiomas of hamsters, 201
reaction of patients with advanced cancer to transfer of homologous lymphocytes, 927
variability in immunological responsiveness to non-*H-2* antigenic differences in mice, 349
Trauma, mechanical, production of labial and lingual carcinoma by, and by application of 4-nitroquinoline *N*-oxide to mice, 907
Tumor(s) *see also* Names and types of
interaction between, and murine host during neoplastic growth, 1053
Tyrosinase inhibitors, inhibition of growth and respiration of melanomas by, 823

Ulcers *see* Gastric tumors

Vascular patterns, in living tumors studied with transparent chamber in hamster cheek pouch, 497
Vinblastine, *in vitro* assay for growth-inhibiting activity of, 851
Vincristine, effect of, on fine structure of HeLa cells during mitosis, 355
Virus *see also* Mammary tumor agent
adenovirus 12,
chromosome aberrations in tumors of Syrian hamsters induced by, 603
karyologic studies of tumors induced by, in Syrian hamster, 759
sex-related resistance to, in hamsters, influence of thymectomy, 617
of avian sarcomas, mechanism of carcinogenesis and cell multiplication and differentiation, 679
Virus—Continued
H and RV, lethal infection and pathological findings in A × C rats inoculated with, 937
herpes-like particles in American lymphoma, 899
lactic dehydrogenase agent, properties of, in mice, 975
murine leukemia,
Friend, thrombocytopenia induced by, 993
Rauscher,
long-term propagation of, in tissue culture, 319
pathogenesis of, 865
Rich, characteristics of, 523
polyoma,
dose response to, in rats, 259
hepatic hemangiomas of hamsters induced by, 201
inheritance of resistance to tumorigenesis by, in inbred mice, 595
runting syndrome in mice inoculated with, 237
reovirus, acridine orange staining of monkey kidney cell infected with, 919
Rous sarcoma,
antibodies against, in African chickens and wildfowl, 1043
and other avian tumor, genetic influence of the Rs locus on susceptibility to, 857
simian vacuolating (SV40), autologous implantation of rhesus monkey cells "transformed" *in vitro* by, 981

X-ray irradiation:
chromosomal changes in mouse tissues during leukemogenesis induced by, 421
factors affecting mortality from secondary disease in mouse radiation chimeras, 227
genetic factors influencing protection against, by bone marrow in mice, 695
protection against damage from, with 2-β-aminoethylisothiourea, glutathione, and serotonin in mice, 103
radiosensitivity of ascites murine lymphoma cells, 841
